## SUTS Rate & Taxability Location Searches (GIS Searches)

	August	September
Web Searches	136,056 hits	140,089 hits
API Searches	188,778 hits	143,900 hits

## SUTS Rate & Taxability API

- Currently all API searches are coming from retailers who have self-integrated the API into their system. They may also come from searches using the MyColorado app.
- TTR has developed a plug-in for WooCommerce that will allow WooCommerce users to benefit from the API. The Department is developing a testing program that will also be used for other plug-ins.
- Next candidate likely to be Shopify.
